SPRING OF 1895.

OUR MOST GRATEFUL ACKNOWLEDEMENTS—While inviting particular attention to the stock and assortment of splendid novelties and choice Ornamental Plants generally, set forth in this catalogue.

THIRTEEN HOUSES, for plants and propagating purposes, give us unusual facilities; so we can truly say our plants are in most splendid health and vigor, of the best size and shape for packing, and put up in the most approved style for safe transit. They are usually sent by express, for which there are excellent facilities at this point.

DIRECTIONS—Don't fail to give name and postoffice address with every order, letter or postal card. When convenient please use enclosed order sheet when ordering.

Where practicable, small plants will be sent by mail, cost of postage added; we shall, however, send all packages by express at purchaser's expense, unless specially ordered otherwise; the advantages are obvious; larger and better plants can be shipped, and they usually arrive in better order, with fibrous roots intact, ready at once to sustain life. By mail, more or less soil is removed, unavoidably breaking roots, compelling the plant to make new roots, which it does quickly if conditions are favorable, or lingers for days or even weeks before it starts, much to the annoyance of the purchaser, who, no doubt, frequently exclaims, "I wish I had taken their advice and had them sent by express." With our many years of experience, we claim to be as successful in sending by mail as any. It is, however, the unanimous verdict of all florists, that expressing has many advantages over plants sent by mail. Plants or bulbs of a bulky nature will, in all cases, be sent by express or freight. Extra plants will be added to cover expressage.

TO FLORISTS, NURSERYMEN AND DEALERS—We wish to call your special attention to the liberal discount offered on prices in this catalogue. On orders amounting to \$5.00 or over we will furnish you at lowest rates quoted herein.

Direct all letters to **PHOENIX NURSERY COMPANY, P. O. Box 1215, BLOOMINGTON, ILL.**

TERMS OF PAYMENT—Cash, or satisfactory security before shipment of stock. All orders to be sent by express "C. O. D.," must be accompanied with one-half the amount in cash. After delivering at express, postoffice, or depot our responsibility ceases. Errors and mistakes of ours cheerfully corrected.

Remit by Postal or Express Order, Bank Drafts on New York, St. Louis or Chicago, payable to order of **PHOENIX NURSERY COMPANY**, or currency by express prepaid.

Purchaser's selections gladly allowed, and the choice new varieties usually included in sets or tens, as far as practicable, without extra charge.

DESCRIPTION OF NEW PLANTS—We give our own, as far as we have had time to test; otherwise we must give such as we get with plants.

TIME OF PLANTING—From the time spring frosts cease up to June 15. A most admirable feature of pot-grown plants is the perfect safety and facility of using to advantage, up to a very late period, say July 10, for instance, where new places cannot be got ready in the usual spring season for planting, or where seeds, etc., have failed. The only prerequisite is to choose, if possible, a moist, cloudy time for planting out, or use shade or water temporarily till rain comes. For very late planting the Monthly Roses are best for bloom; next, the quick growers and perpetual bloomers, as Ageratum, Zonale Geraniums, Lantanas, Petunias, Verbenas, Salvias, Vincas, and also the beautiful Achyranthus and Coleus.

We cannot afford to fill orders for less than \$1.00 at the prices named herein.

ROSES

We make the growing of ROSES a specialty in all classes and kinds. Our list of varieties has been carefully selected, so as to include only the very best. We are constantly buying the newer varieties, and after giving them a fair trial, discard such as are not found worthy of cultivation and of distinct character.
